

Add+Vantage Math Recovery®

Add+Vantage Math Recovery® (AVMR) courses are designed to support **elementary teachers, special education teachers, and math interventionists** in diagnosing and advancing student understanding and numeracy development. The assessment, data collection, and teaching tools are designed to accelerate the ability of educators to recognize students' current levels of numeracy understanding to make data-driven instructional decisions.

AVMR Course 1

Foundational learning of whole number topics such as number words and numerals, structuring numbers, addition and subtraction, and topics that affect the development of future mathematical understanding. The topics and domains covered often appear later on as holes in understanding for older struggling students.

Meets virtually: June 12, 13, 14, 18, 19, 20, 25, 26 (9:00-11:00 EST)

AVMR Course 2

Expand and deepen knowledge and understanding of the mathematical development for all students by implementing diagnostic assessments for multiplication and division and place value understanding.

Meets virtually: August 6, 7, 8, 9, 13, 14, 15, 16 (9:00-11:00 EST)

Other Details:
