

Theatre Technology

In the Department of Theatre and Dance, theatre technology is one of the fastest growing areas and is in high demand. During your time of study, you will learn both in the classroom and in a practical setting, working both backstage as well as on stage. At NMU, we pride ourselves on developing students into designers and technologists, where they are the frontrunners of making our departmental productions come to life. During your time at NMU, you will have the opportunity to work in our state of the art, 500 seat proscenium theatre, the Forest Roberts, as well as our Panowski Black Box that reflects many professional theatres across the country. We at the Department of Theatre and Dance believe that as a pre-professional training program, it is our responsibility to ensure that students' opportunities reflect what they will be getting once they enter the professional world. If you are interested in exploring technology for theatre and discovering all of the avenues that it can open for you in the world of theatre, television, and film, then the Theatre Technology degree within NMU's Department of Theatre and Dance is the perfect program for you!

Skills and Competencies

NMU's Department of Theatre and Dance strives to create a learning environment where students excel both academically and professionally. In classes, we develop your skills of designing, writing, communicating and increase your knowledge of theatre education. In the shops and on or behind the stage, we work diligently to provide you with the education that you need to develop into young professionals or move to the next level of your technology and design theatre studies. Our goal as a faculty at NMU is to be able to have our students accomplish design or technical theatre work that will appear on stage before they graduate, be it in the area of scenery, costumes, lighting, sound, media, stage management, or technical direction and engineering. Additionally, through our faculty's industry affiliations, students have the opportunity to work alongside faculty in the professional sector as interns, assistants, and/or in many of our study abroad programs.

Course Work

This degree includes the following courses as part of the program requirements, and specific major requirements along with general education courses and graduation requirements.

General Education Required Courses (32 cr.)

Required Courses for Program (20 cr.)

- TH131 Stagecraft (2 cr.)*
- TH140 Stage Electrics (2 cr.)*
- TH141 Fundamentals of Design (2 cr.)*
- TH142 Sound and Media Engineering (2 cr.)*
- TH143 Costume Construction (2 cr.)*

** Must take at least twice with different content
Detailed course descriptions can be found at www.nmu.edu/bulletin.

Career Development

You should begin the resume-building process as soon as you can. The Academic and Career Advisement Center can assist you with career planning, while Career Services will help you fine tune your resume and look for jobs related to your field. In the meantime, the more hands-on experience you have, the better the chances are that you will find a job. Becoming involved in a professional related internship and the Alpha Psi Omega National Theatre Honor Society, the more ways you have to develop your professional skills and gain experience. In addition to participating in the various productions and activities offered by the Forest Roberts Theatre, NMU, and beyond, members have the opportunity to be part of a family unlike any other. Of course, your academic course work is important as well, so be sure to maintain a high grade point average.

Additional Considerations

The BFA in Theatre Technology and Design is a highly specialized and sought after program of study. This degree offers 6 different areas of study - Scenery, Costumes, Lighting, Sound and Media, Stage Management, and Technical Direction. In most cases, students will be admitted into the program in their freshman year, but students may also audition for the BFA program in any year of study if they choose to do so. Admittance into the BFA program requires an interview and portfolio submission.

Job Outlook

As we continue to see within our program, the job market for Theatre Technologists and Designers is vast and exciting. Furthermore, the training that the Department of Theatre and Dance offers its students prepares them for an abundant of careers.

Potential Careers
