IV. Advisor Report

A. Gwen: "Since this is some of our members first EFG meeting I want to give an overview of what this meeting will look like. The groups have all prepared their reports for the semester that we have been given access to. They will come in to present their information and let us know how they have used their funds, how they plan to use their funds next semester, how much carry-forward they have, and then they can request to keep some, all, or none of that carry-forward. They can also request an increase, decrease, or no-change in their allocation funds per student. The SFC as a group then discusses and decides what to do for that group. If you have any questions or concerns during the meeting please let us know."
