

To post a job on Handshake:

1. Start by **clicking *Post a Job*** from your home dashboard:

You can also **click *Jobs*** in the left hand navigation bar and then **select *Create Job*** toward the right hand corner.

You will now be asked to complete 4 steps: **Job Basics**, **Job Details**, **Job Preferences**, and **Schools** to post the job to. You don't have to fill out every field to create your job - required inputs will be identified with an asterisk(\*).

**Helpful Tip:** the more fields you complete, the more well-defined your job posting will be (and the more likely you'll be to attract well-qualified candidates).

## 2. Let's start by going through **Job Basics**:

- **Job Title**

- You'll see an option below to add an ATS / job code. If you select this option, you'll be able to add a tracking code to this job that matches the job on your own external site. It's useful as a reference number, but does not actually provide any additional functionality.

- **Company Division**

- If your company has **Divisions** set up, you'll see that drop down menu appear right below job title. Make sure to select which division within your company you're hiring for.

- **Require students to apply through an external website or applicant tracking system**

- If you select "yes" for this option, you'll be able to input a url for them to apply through, or you may 'add instructions for students to use instead' if you have a different way in which you'd like them to apply.
- Note, they will still apply through Handshake first, but they will see your link to also apply through your own system as a required step.

- **Display your contact information to students**

- If you'd like students to see your name, or your name and email as a point of contact for this job, select either option. Otherwise you can always choose "Don't show my info."

- **Add a Job Type**

- Don't see the job type you're looking for? Choose "Show more options", and you'll see options for Cooperative Education, Experiential Learning, Fellowship, and Graduate School

- **Add an Employment Type & Duration**

- When selecting Temporary / Seasonal, you'll need to add both the start and end dates.

- **Work Study Job**

- If this *is* a Federal Work-Study job, students that are *not* eligible for Federal Work-Study will not be able to view or apply to this position.

The screenshot shows a 'New Job' form with the following fields and options:

- \* Job Title**: A text input field with a placeholder. Below it is a link: '+ add an ATS / job code to match against your applicant tracking system (this will not sync applications)'.
- Company Division**: A dropdown menu with the text 'Choose a division...'.
- Require students to also apply through website or applicant tracking system?**: Radio buttons for 'Yes' and 'No'. 'No' is selected.  
 Yes  No
- Display your contact information to students?**: Radio buttons for 'Name Only', 'Name and Email', and 'Don't show my info'. 'Name Only' is selected.  
 Name Only  Name and Email  Don't show my info
- \* Job Type**: Radio buttons for 'Job', 'Internship', and 'On Campus Student Employment'. 'On Campus Student Employment' is selected. Below it is a link: 'Show more options'.  
 Job  Internship  On Campus Student Employment  
[Show more options](#)
- \* Employment Type**: Radio buttons for 'Full-Time' and 'Part-Time'.  
 Full-Time  Part-Time
- Duration**: Radio buttons for 'Permanent' and 'Temporary / Seasonal'. 'Permanent' is selected.  
 Permanent  Temporary / Seasonal
- Work Study Job?**: Radio buttons for 'Yes' and 'No'. 'No' is selected.  
 Yes  No  
Work study jobs are for eligible students only

3. Once you're finished with **Job Basics**, choose **Next** along the bottom of your screen. Next we'll go through adding in your **Job Details**:

- Add a **Description** for your job
  - If you copy and paste a description from your own website, we'll retain all of the formatting for you.
- Choose **Job Functions** from the dropdown
  - This helps students search for jobs by their functional area
- You can add a **Job Salary** if you'd like, however this is completely optional.
  - You can also toggle the dropdown on the right between per year / per month / per hour, or mark the job as an unpaid position
- Enter a **location** for your job
  - As you start typing the address, some suggestions will show up in the address field - you must select one rather than manually typing it in.
  - This can be a specific office location, or a general city like "Chicago, USA"
    - If you do not see your location listed, please submit feedback to Mapbox here: <https://www.mapbox.com/geocoder-feedback/>
  - If this position is located in multiple locations you can select **Add Another Location**

**\* Job Location**

420 Montgomery Street, San Francisco, CA 94104, USA

[Add Another Location](#)

- 
- If your job is in the United States, you'll see an additional "Eligibility for international students" section appear. We'll talk about that below.

- Finally, choose which **documents to require** students to submit with their application (if you are requiring them to apply via Handshake).

**\* Description**

A Normal text ▾   Black ▾   **Bold**   *Italic*   Underline            

You can copy and paste a description directly from your website - we'll retain all the formatting for you.

**\* Job functions**

Choose a job function...

This will help students interested in specific functions search for your job.

**Salary**

\$    Per year ▾

Unpaid

**\* Job Location**

Enter your address

Allow remote workers?

**Required Documents**

- Resume
- Cover Letter
- Transcript
- Other Document (e.g. work sample, course schedule, or other misc. documents)

- As mentioned above, choosing a job location in the United States, will open up an "Eligibility for international students" section
  - Select either of the options that appear, or read more about them with the additional links provided

**Eligibility for international students (non-US citizens or permanent residents)**

- Would you sponsor a [work visa](#) for the right candidate?
- Would you hire international students seeking internships in their field of study? ([OPT and/or CPT eligible](#). Note: OPT/CPT requires no immigration sponsorship by an employer.)

4. Once you're finished with **Job Details**, choose **Next** along the bottom of your screen. Next, we'll go through **Job Preferences**:

- **Note:** none of the preferences you add to this page will block students from applying for your job. But we will indicate to you which candidates meet all of your preferences, and those who don't.
- **Also note:** all of these preferences are completely optional.
- Add a **Graduation date range** for your job by specifying the earliest and latest graduation date for qualified applicants
  - Prefer to qualify students by **School Year** - like Freshman, Sophomore, Junior? You can select the link below to toggle to that option instead.
- Add a **Minimum GPA** value
- Choose which **Majors** would make a student qualified for your job. This step is discussed in more detail below.
- Finally, configure who should receive **Applicant Packages**, and with what frequency. We've also added additional details on this below.

Students who do not meet your work authorization, graduation date, GPA, and major preferences will still be able to apply, but we'll highlight which ones don't match (and let you filter them out).

#### Graduation date range

Earliest grad date

Latest grad date

month

year

month

year

Qualify students by school year instead (for example, Freshman, Sophomore, Junior)

#### Minimum GPA

**Majors** *Select a category to choose specific majors*

- Arts and Design** - 0 of 13 majors selected
- Business and Entrepreneurship** - 0 of 18 majors selected
- Civics and Government** - 0 of 9 majors selected
- Communications** - 0 of 7 majors selected
- Computer Science, Information Systems, and Technology** - 0 of 8 majors selected
- Education** - 0 of 8 majors selected
- Engineering** - 0 of 15 majors selected
- Health Professions** - 0 of 14 majors selected
- Humanities and Languages** - 0 of 11 majors selected
- Life Science** - 0 of 10 majors selected
- Math and Physical Sciences** - 0 of 4 majors selected
- Natural Resources, Sustainability and Environmental Science** - 0 of 10 majors selected
- Social Sciences** - 0 of 8 majors selected

These majors consolidate individual majors across every school on Handshake. To choose a specific major by individual school [click here](#).

**Applicant Packages** *Specify who should receive the applicant packages*

 Employer Dolores University

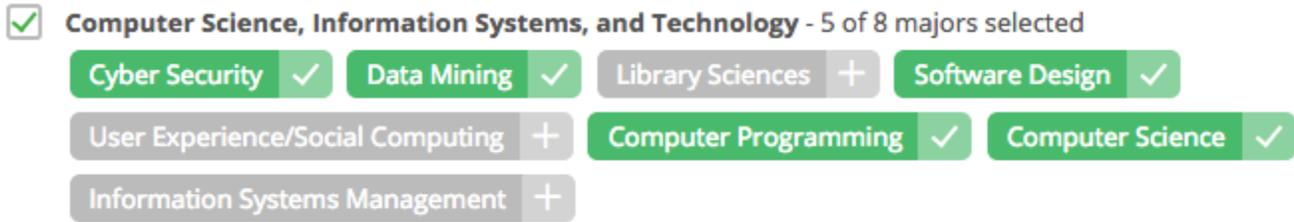

- Email a summary of all applicants once my job expires
- Email every time a new student applies
  - Send all applicants
  - Only send me applicants who match all of my preferences

Add someone else to receive packages

- **Setting up your Major Preferences**

- By choosing "Computer Science", I am mapping my major preference to each schools' individual term for "Computer Science"
- Even if its name "Software Engineering" at a different school, it will still get bucketed into this major correctly
- **Note:** these majors are consolidated across **every school on Handshake**.
- Once you select a category (by clicking on the checkbox next to it), that category will expand to show the majors within it.
- **All majors within a category** will be selected by default. But I can remove them by simply clicking on the major I'd like to remove.

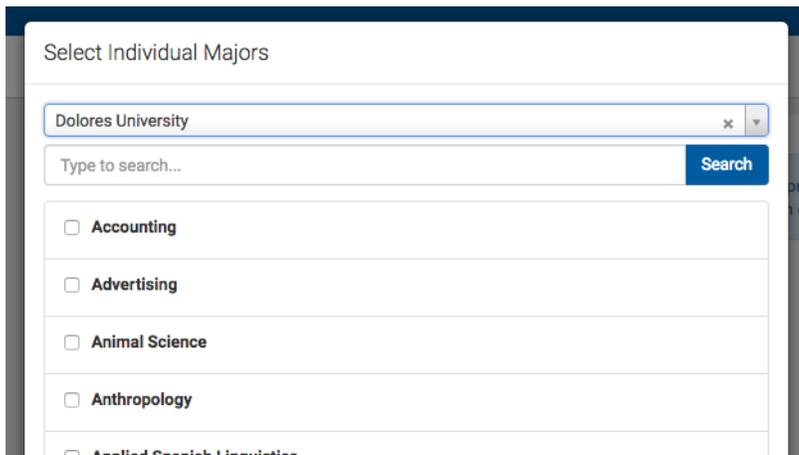

- In the image below, I've chosen to remove Library Sciences, User Experience, and Information System Management from the Computer Science category. I see that I've selected 5 of 8 majors.

- If you know of a very specific major at a school that you'd like to choose instead of our mappings, choose the link at the bottom:

These majors consolidate individual majors across every school on Handshake. To choose a specific major by individual school [click here](#).

- This will open up a modal to pick your school and major manually:

- Setting up who should receive **Applicant Packages**
  - **Email a summary** - you'll receive one email once your job expires
  - **Email every time** - you'll get emails each time a new student applies. If you choose this option, you can then specify whether you want every student who applies, or only students who match all of your preferences (Eligibility for international students, grad date / year, GPA, and Major).
  - You'll see your name listed first. You can select (or remove) the following options:
  - You can also add other teammates to receive packages by choosing from the dropdown. If you haven't added them as a contact yet, there will be + add new contact at the bottom of the dropdown.

## Applicant Packages Specify who should receive the applicant packages

Employer Dolores University

- Email a summary of all applicants once my job expires
- Email every time a new student applies
  - Send all applicants
  - Only send me applicants who match all of my preferences

Add someone else to receive packages

5. Once you're finished with **Job Preferences**, choose **Next** along the bottom of your screen. Next we'll go through **School selection**:

- **Add schools** on the left, and you'll see them appear on the right in a table
  - **Note:** if your company has not been **approved to post jobs at a school**, you will not see that school as an option. If you have **not been approved at any schools**, you can still create this job and come back later to add schools.
  - If you'd like to post this job to all schools you've been approved at, select "Add All Schools" at the top
- Once you've added schools, you'll see a few options to manage them
  - **Remove a school** - The (-) to the left of each schools allows you to remove it from the list
  - **Interview on campus?** - selecting this will simply flag this job on the school side, as an employer potentially interested in interviewing on the school's campus in the Career Services office.
  - **Apply start date** - you can choose if you'd like to block students from applying to your job until a specific date.
  - **Expiration date** - you can update the date that the job will expire at that school (and students will no longer be able to apply).
- Adding a **Global apply start date** allows you to update the job start date for every school on your list (it will overwrite previously set start dates).
- Adding a **Global post expiration** allows you to update the post expiration for every school on your list (it will overwrite previously set expiration dates).
