

NMU Center for Forensic Science & The Public Safety Institute

Present:

Alternate Light Source Workshop

Instructor: Special Agent Leslie S. Larsen, Senior Team Leader, Evidence Response Team, Detroit FBI

Join us for a two-day ALS workshop designed to provide students with intensive hands-on experience in using ALS techniques to identify body fluids, fibers and more on crime scenes. Students will also learn how to properly document their results in written reports and photography.

Required Equipment: DSLR Camera with macro lens & shutter release, Tripod.

If your department has ALS equipment, please bring that to class.

Attendees will be issued kits to keep that include two ALS Beams (450nm and 395nm) and appropriate goggles.
