

## NMU Center for Forensic Science Human Remains Recovery Course

### Instructors:

Dr. Jane Harris, Forensic Anthropologist, Director, NMU Center for Forensic Science

Dr. Malorie Albee, Assistant Professor, Sociology & Anthropology

Dr. Scott Demel, Professor of Anthropology

This 40-hour course is designed for persons who want to enhance their knowledge of forensic recovery techniques in an outdoor context. Lecture topics will include basic methods for locating and recovering clandestine skeletal remains, basic human osteology, and the role of the forensic anthropologist in medicolegal death investigations including an introduction to skeletal methods and taphonomic interpretation.

Upon completion of this course participants will be able to:

- Demonstrate the ability to locate clandestine graves
- Collect human skeletal remains from the ground surface
- Utilize methods and document the process of recovering human remains
- Recover human remains from a burial context
