

Tutorial 4-Project Organization

One convenient way to locate the information you are interested in is to search dashboards by the project. Projects in the Analytics Portal are organized by categories and sub-categories. The following is the list of category and sub-category names.

Categories	Sub-categories
Applications and Admissions	K-12 Data, Census Reporting, Application KPI
Enrollment and Student Characteristics	Enrollment Trend, Student Groups Counts, Orientations, Student Profile, Undergraduate vs Graduate, First-time Freshmen/Transfer/Readmits/Continuing, Major and Minor Aggregate
Retention and Persistence	Retention Trends, Retention Lifecycle, Retention, Graduation
Graduation and Completion	Graduation Rates, Degree Awarded, Degree Counts
Student Success	Student Risk Score Model
Courses and Credit Hours	Face to face/Online courses, Satisfactory/Unsatisfactory rates, DWF Analysis, Student Proficiency
Financial Aid	Financial Aid Counts by Student Type, Financial Aid Counts by Department, Scholarship
Finance and Budget	Fiscal Year Balance, Financial Trend Line, Transactional Reports
Alumni and Alumni Relations	Alumni Overview, Alumni Relations, 3 Year Follow up Survey
Graduate Outcomes	Post-graduation outcomes Survey, 3 Year Follow up Survey
Market Share	Market Share by County
Student Holds	Hold by Degree, Hold by Student Type, Hold by Class
Student Organization (Pick One)	
IRPA Projects	

These category and sub-category names can be used as keywords when you search for the dashboards of your interests. Further information on how to search for information will be introduced in tutorial 5.
