- North American and European students will mix on classes
- 3 hours of morning classes, c. 3 hours of afternoon classes
- All teaching in English
- Company visits and field trips integrated into program
- Multinational European lecturing team

Business live – Field Trips

Berlin is a symbol of German history ranging from Prussia, the Nazi Regime, World War II, and the Cold War to German reunification. The agenda contains a visit of the “Reichstag” (The German Parliament) and a discussion with a political insider, the Berlin Wall, Brandenburger Tor and Checkpoint Charlie.

Hamburg is known as Germany’s “Gateway to the world” and economic hub. It is a harbour city, connected to the North Sea via the river “Elbe”. A visit of the port ist part of the program. The Peace Palace, which houses the International Court of Justice, is visited in **The Hague**. The hostel is located in **Rotterdam**, a city of culture and innovative architecture. The trip through the Netherlands will be rounded off with a city tour through Amsterdam.

Company Visits

The European Summer School program includes several one-day field trips to regional mid-sized companies, which are well-known and typical German mid-sized companies producing high quality products. Mostly they are family-owned businesses with a specific corporate culture and governance policy. The companies are very successful in the global market but their production facilities are mainly located in Germany. During the company visits students will see high-quality manufacturing and get a chance to discuss corporate business strategies with the management.
