

FOCUS AREA 5: ACTION PLAN

EMERGENCY FOCUS AREA: COVID-19

Ensure long-term emergency planning success by reflecting on what we have learned during the COVID-19 pandemic.

Thoughtful and careful emergency pre-planning helped us establish a strong mitigation response during COVID-19. As we plan for a shift to an endemic state, it is important to reflect and make updates to our traditional emergency planning and training practices based on what the COVID-19 pandemic has taught us about planning for long-term crises.
